An award-winning political journalist for The Atlantic tells the inside story of how the embattled Democratic Party, seeking a direction for its future during the Trump years, successfully regained the White House. The 2020 presidential campaign was a defining moment for America. As Donald Trump and his nativist populism cowed the Republican Party into submission, many Democrats—haunted by Hillary Clinton's shocking loss in 2016 and the resulting four-year-long identity crisis—were convinced that he would be unbeatable. Their party and the country, it seemed, might never recover. How, then, did Democrats manage to win the presidency, especially after the longest primary race with the biggest field ever? How did they keep themselves united through an internal struggle between newly empowered progressives and establishment forces—playing out against a pandemic, an economic crisis, and a new racial reckoning? Edward-Isaac Dove's *Battle for the Soul* is the searing, fly-on-the-wall account of the Democrats' journey through recalibration and rebirth. Dove traces this process: from the early days in the wilderness of the post-Obama era to the jockeying of potential candidates; from the backroom battles and exhausting campaigns to the unlikely triumph of the man few expected to win; and on through the inauguration and the insurrection at the Capitol. Dove draws on years of on-the-ground reporting and contemporaneous conversations with the key players—whether with Pete Buttigieg in his hotel suite in Des Moines an hour before he won the Iowa caucuses or with Joe Biden in his first-ever interview in the Oval Office—as well as with aides, advisors, and voters. Offering unparalleled access and an insider's command of the campaign, *Battle for the Soul* takes a compelling look at the policies, politics, and people, as well as the often absurd process of running for president. This fresh and timely story brings you on the trail, into the private rooms, and along to eavesdrop on critical conversations. You will never see campaigns or this turning point in our history the same way again.

**SILENT INVASION** They arrive in silence and darkness. They descend from the skies. They have a hunger for human flesh. They are everywhere. They are parasites, alien creatures who must invade—and take control of—a human host to survive. And once they have infected their victims, they can assume any deadly form they choose: monsters with giant teeth, winged demons, creatures with blades for hands. But most have chosen to conceal their lethal purpose behind ordinary human faces. So no one knows their secret—except an ordinary high school student. Shin is battling for control of his own body against an alien parasite, but can he find a way to warn humanity of the horrors to come? *The Adventure of the Dying Detective* is one of the stories among 56 Sherlock Holmes adventure by Arthur Conan Doyle.

March 24. The spring is fairly with us now. Outside my laboratory window the great chestnut-tree is all covered with the big, glutinous, gummy buds, some of which have already begun to break into little green shuttlecocks. As you walk down the lanes you are conscious of the rich, silent forces of nature working all around you. The wet earth smells fruitful and luscious. Green shoots are peeping out everywhere. The twigs are stiff with their sap; and the moist, heavy English air is laden with a faintly resinous perfume. Buds in the hedges, lambs beneath them-everywhere the work of reproduction going forward! I can see it without, and I can feel it within. We also have our spring when the little arterioles dilate, the lymph flows in a brisker stream, the glands work harder, winnowing and straining. Every year nature readjusts the whole machine. I can feel the ferment in my blood at this very moment, and as the cool sunshine pours through my window I could dance about in it like a gnat. So I should, only that Charles Sadler would rush upstairs to know what was the matter. Besides, I must remember that I am Professor Gilroy. An old professor may afford to be natural, but when fortune has given one of the first chairs in the university to a man of four-and-thirty he must try and act the part consistently.
